

In regards to the FCC and the phone privacy law in IN.What we have in place know is far better than the one the FCC is talking about.I signed up with the att. general and love it.On the average I would get 4-6 "unavailable calls" or "anonymus" on the caller ID, calls per day.Even when I'd tell whoever "I'm not interested and take me off your list I would get the same call in 2-3 weeks! This has stopped since I put my phone number on the Do-Not-Call List.i'm more relaxed know knowing that when our phone rings its either friends or family. I do not want ANYONE calling me for services or purchases etc.if I want something I"LL make the calls!.the way it is being purposed anyone can call if they had pass dealings with. This is UNACCEPTABLE , it's another way to invade on our privacy,and disruped the home with UNWANTED calls!!!Indiana is doing a GREAT job keeping UNWANTED CALLS at bay.It is my hope that Indiana's do not call list will remain UNCHANGED.

Thank you , Mark Obren
